Course Evaluation Results: Property II

Dear Professor Blackman,

What follows are Fall 2015 course evaluation results for the above-referenced course. These results are based on the 36 evaluations returned, yielding a response rate of 76.6%.

At the top of page 1, the "Global Index" graph represents the combined average of all 11 evaluation questions. Underneath, the "Professor Evaluation" and "Course Evaluation" graphs represent the combined average of those question groups.

Next, the results for each individual question are displayed in a simple bar graph. To the right of each bar graph, more detailed data is displayed, as follows: number of responses to that question (n); the average response on a scale of 1 to 5 (av); the median score (md); and, the standard deviation (dev).

Finally, at the end of the report, you will find an unabridged scanned copy of all handwritten comments from your students, and a faculty "Profile" page which graphically displays your average score for each evaluation question.

3. General Comments

3.1) Please provide any additional comments about the course or professor in the space below.

Some times it felt like certain material got really glossed over and I was occasionally left unsure as to what we were supposed to take away from the material or how it connected—especially early on in the course. Slower and more clearly could be helpful. The 2nd half of the class went much better with me.

Calling on everyone each class helped stay on top of the material throughout the semester. Midterm was also helpful. Discouraging to speak up in class sometimes if got things wrong.

I learned a lot.
Really like the videos & how well Blackman knows the material. However, the way he answers student questions can be demeaning to keep others from asking.

Prof. Blackman is an outstanding professor. He is fair, consistent and always prepared, encouraging the same from us. Excellent job!

Overall, great job.
I appreciate all the work and effort you put in preparing for class and the voluminous resources you make available to students.

It is a property class, not Can law.

By far the best Professor at STL.

Arrogant. Very much so. Very rude to students who contradicted him when wrong. If it wasn't for his recorded lectures, I would give him a negative rating. He is too young to think he is so above his students. He needs to actually practice and stop Robbins.

Seemed unprepared at times.

Seemed to shew off inquiries or give vague explanations.

Very knowledgeable of both property principles and constitution law principles. It is always reassuring to have intellectual diversity in a law school faculty! Blackman is supreme.

I appreciate the Prof.'s understanding of constitutional law as it makes the topics easier to understand.

I liked the way everyone gets called on for smaller parts even though it is every time.
I enjoyed the class. Very organized. Thank you for the practice charts. The lab was very helpful - would value from this lab again.

Prof. Blackman is very knowledgeable.

The videos are very helpful.
